**What is the Partial Exemption of a Qualifying Child Care Center?** This partial exemption is available to real property on which a licensed child care program serving only children under six years of age is operated if at least 25% of children enrolled in the center reside in households receiving public assistance under at least one of the following programs:

- Publicly funded child care authorized by Chapter 5104 of the Revised Code
- Medicaid
- The Ohio Works First program established by Chapter 5107 of the Revised Code
- The supplemental nutrition assistance program administered by the department of jobs and family services under section 5101.54 of the Revised Code
- The special supplemental nutrition program for women, infants, and children administered by the department of health under section 3701.132 of the revised Code

The exemption is in the form of a percentage tax credit which is applied after the credit prescribed by Revised Code section 319.301, the adjusted tax. The credit equals either 25% or 75% of the adjusted tax depending on the percentage of children enrolled in the center who reside in households receiving at least one of the forms of public assistance listed above. A qualifying center does not include a center operated from the permanent residence of the licensee or administrator or from a location that is also used for a separate commercial purpose. For purposes of this exemption, licensure means a licensed child care program as defined in section 5104.01 of the Revised Code.

**Instructions to the county auditor:** the county auditor must approve or deny the application within thirty days of its receipt using the DTE 106F form.
